HODEOS COULD NOT PITCH.

Hodson was scheduled to pitch the game, but his tounion was not on good terms with him and he did not don his uniform at all. In his stead, coal Boy Planacion's graceful form decorated the pitcher's box. Tom-mass was in good form and had no trouble in winning the game from such an opponent as Nolan.

Mark Moran, of Providence, late of the Easton club, umpired. His work was not wholly satisfactory, although he evideed a praiseworthy desire to do

A BRILLIANT PLAY.

Altoona presented a somewhat disranged toam. First Baseman Hagan and Second Baseman Buttermore left the club last Saturday and their places have not yet been filled. Pitcher West covered first yesterday and Captain Alex Donoghue came in from left field and put up a brilliant game at second. Ashenback, who proved himself a clever fielder, covered left.

This year his position has not been an enviable one. He has had several conflicting elements to contend with, and aside from this at no time had absolute control is simply as matter of poetic inspiration is simply a matter of poetic inspiration is simply as matter of po of the team. Enthusiastic and well meaning, but misguided persons have end-avored to get him to sign certain players and others have been as freely recommended for instant rulease. These people he has been forced to oppose at every step. I am in favor of giving Swift absolute control of ghan's head with terrific speed. Up in the sir went Thoma's left hand and he touched the ball and broke its force.

Captain Phelan saw Flansphan's move and rushel in to back up the long pitcher. When the force of the ball was broken Phelan jumpet in the base ball world, let his resignation be received and acted upon at once."

Whoever is responsible for it, this fact is parent to lower of the same ball in this given.

Whoever is responsible for it, this fact is patent to lovers of base ball in this city; the Scranton club has tans far been a disappointment. If a hydra-headed management exists it should be abolished at once. It can accomplish no good. The manager of the clab, whoever he is, should have absolute control of the club and the public would then know just where to place the responsibility when the club fails to schleve the results that it should. There could be no shirking or shifting of that responsibility as we see today in this city. The Taibunk has thus far studiously avoided attempting to give the stockholders of the Scranton club any advice concerning the manner in which it advice concerning the manner in which it should conduct its affairs and it breaks through its usual reserve now only to say, "give us one manager who manages."

Summer With Its Debilitating Weather is Here.

The Best of Thought and Care is Due to the Old People-For Them to Bo Strong and Happy, Refreshing Sleep is Necessary-Paine's Celery Compound Must Now Be Taken.

Young people in the flush of health are apt to forget that the aged need help more frequently than they, to ward off weakness and to check disease. Because there are no symptoms of any specific disease they think nothing can be done. They forget that the weaknesses of old age are general weak-nesses, a difficulty of the slow organs of digestion and essimilation to properly feed the nerves and body.

The one great need, as hot, debilisting weather comes on, is for new, rich

blood to every part of the body is shown by a stronger pulse, fuller heart beats, and a brightening of the spirits. Sleep becomes sound and refreshing, and rheumatism, sciatics, neuralgis, and other results of an underfed nervons system disappear.

The world of worn out, nervous, feebl men and women is indebted to Professor Edward E. Phelps, M. D. LL. D; of Dartmouth medical school for the discovery of this great nerve regulator and blood purifier—the best and final fruit of a long life devoted to the study of weakness of nerve tissues,

anv its natural remedy.

Paine's celery compound gently stirs the workings of all the vital organs, feeds the nerves when waste in their tissues has exceeded the repair, and tions relieves nervous prostration, dvs pepsia and disorders of the liver, kidneys and heart.

It builds up wasted bodies, frees weak nerves and nerve centers of irritability by supplying rich, abundant blood to build up the worn-out tissues.
